DELHI PUBLIC SCHOOL SOCIETY

OUR INHERITANCE

We are functioning under the aegis of The Delhi Public School Society, New Delhi, which at present has around 150 Schools in India and abroad and is well recognized throughout the academic world for its progressive approach and commitment to excellence in education.

We have inherited our strong foundation built on values, traditions and relationships from the Delhi Public School Society, New Delhi.

The DPSS was born in 1947 by men who dared to dream the seemingly impossible dream that in a nation newly born quality education will be made available to children in every part of India in the remotest, most inaccessible corner of the vast country at an affordable cost.

DPSS is a non profit, non proprietary, unaided society which aims at complete personality development in its schools. The products should be successful individuals, responsible social beings and responsive citizens of the world.

Mr. Ashok Chandra
Chairman
DPS Society, New Delhi

OUR ARCHITECTS

Our Architects and guiding lights are Mr. Ashok Chandra, Chairman, DPSS whose vision and enterprise is making DPS go places.

Mr. Ashok Chandra believes that good education must focus on all round development of our children, honing their talents, sharpening their communication skills and building up their confidence. This is done by inculcating Indian values and traditions through a number of co-curricular activities, thus exposing them to our rich Indian culture

Delhi Public School

Answer your child carefully, because those are the answers he will give in-turn.

SUPERHOUSE EDUCATION FOUNDATION

LEGACY OF EXCELLENCE

Mr. Mukhtarul Amin
President

IGNITING MINDS

Superhouse Education Foundation came into being in the year 1996 with the vision to augment the new age educational and global learning. Since then, the Foundation has set up a number of high quality educational Institutions and learning centers in India and abroad. 'Igniting minds' has remained the guiding force of the Foundation. There are different Educational Institutions imparting knowledge and skills to all age groups and a number of new institutions are in the pipeline to provide specialized higher education.

Superhouse Education Foundation (SEF) believes that a child's early years are the most crucial time in the learning process. Parents play a pivotal role in building up good morals. The foundation aims to leave an impact on the life of learners so that they feel confident to face every challenge with grit and determination. This is achieved by creating an insatiable curiosity that drives the young mind to absorb everything seen, heard or read. The focus remains on long lasting learning rather than cramming

Delhi Public School

DEDICATED TO ACADEMIC EXCELLENCE

Delhi Public School, has been imparting exemplary education ever since its inception. Our children are our future and what we impart to them is everlasting. We believe in a balanced and wholesome education, encompassing knowledge, skills, values, and most importantly discipline. Education is evolving in its meaning with every passing day. The avenues of knowledge have increased plenty fold and so have the mediums of acquiring it. Being a progeny of the information age and we live up to redefined standards every day. Be it academics, sports, talent or co-curricular activities, the DPS standard has made a mark for itself

Their youth is the blueprint of what they will build tomorrow.

We follow the CBSE (Central Board of Secondary Education) curriculum. The entire learning tenure of your child's life is divided into-early education, elementary education, secondary education and senior secondary education. In our 10+2 format, we have a kindergarten segment consisting of Playgroup, Nursery and Preparatory. The primary section includes classes I-V and the secondary section

covers classes VI-X the senior secondary section comprises classes XI & XII . Your child's entire school life is set within the best available infrastructure, faculty and compatible environment. Choosing the right school, will be one of the most important decisions you will have to make to define your child's future and like hundreds of parents in the past, you too can be sure of ensuring the very best for your child.

THE SCHOOL CAMPUS

YOUR CHILD'S SECOND HOME

Every child carries memories of school life throughout his/her life. That's precisely why it is so important for the campus to be a functional and pleasant place that fosters growth and sharing. Spread over a wide area, DPS is located in a peaceful and convenient vicinity. Easy accessibility and a safe neighborhood, is what we choose for your child. A pollution free, secure zone paves way

for an environment, conducive for learning and concentration. The campus is complete in all aspects. The sports facilities, recreation areas, performance halls, clean & well ventilated classrooms, all ensure that your child is always happy and comfortable.

OUR FACULTY

A MENTOR IS ALWAYS A FRIEND FIRST

There is no greater gift, than that of a teacher who believes in his/her student's potential and our staff is extremely motivated to help children explore what they are truly capable of. Devotion and love towards children is the first criteria we look for, when new teachers join our family, because without tolerance for innocent curiosity and knowledge hungry minds, no teacher can truly

impart education. Our teaching isn't about bookish knowledge; it encompasses all the flavours of the real world. Your child will learn social skills, interpersonal skills, caring, helping, believing, refuting, adapting and motivating themselves, and each other. Our teacher-student ratio is 1:20, ensuring that each child gets the attention she/he deserves.

An ounce of practice is worth more than tons of preaching - Mahatma Gandhi

PLAYGROUP, NURSERY & PREPARATORY

TWINKLE TWINKLE... OUR LITTLE STARS

Innocent curiosity and the most original interpretation, all happen between the ages of 0-5. At that age, children are like a sponge, absorbing everything they see, hear and understand. The surroundings have to be fine-tuned, such that this subtle yet important process is not disturbed. To ensure this, each little scholar gets special attention and encouragement. Small is big in many ways, and the children learn a lot from their interactions with each other as well. An introduction to

colours, numbers, music, physical training and cognitive games are repeatedly practiced, to build a strong foundation aimed at sustaining a towering career. We inculcate a stamina for the developing minds to face mental challenges right from the beginning. Our faculty is trained to handle children with a gentle yet firm approach. This wins over your child's trust, faith and enthusiasm, hence making school an enjoyable experience.

ACADEMIC FOCUS

AN INCENTIVE TO EXCEL

Education is a word with many implications. Alphabets and numbers are learnt from books. But imagination, presentation, accuracy, focus, grasping, memorizing, deducing and a whole lot of complex cognitive abilities get nurtured through Education.. The importance of preparation, the fruit of labour and the value of time, all get tested during an examination. It is through these periodic tests and exams that the concept of discipline sets in and we have carefully chalked out incentives to ensure that students are motivated and driven towards

excellence. The academic program is tailored to give incentives and retain efforts. A wall of fame commemorates students who topped the school result and made it to the merit list in the Board Exams. Each class topper also gets an award. The percentage decides which merit-class a child's result falls under. Above 95% is merit, above 75% is distinction, above 60% is First Class and above 45% is second class.

Glory lies in the attempt to reach one's goal and not in reaching it. -Mahatma Gandhi

SPORTS, PHYSICAL TRAINING & GAMES

YOUR CHILD PERFORMS... **FASTER, HIGHER, STRONGER**

A healthy mind resides in a healthy body and we give utmost attention to fitness, sports and outdoor activities. Sports teaches more than just the game. Important values of teamwork, loyalty, spontaneity and the ability to handle both fame & pressure. A game can build your child's character, give his life a direction and most importantly teach him to push himself beyond limitations. Sports and physical fitness inculcate a self-discipline, that is far more long lasting than forced discipline. We have a wide gamut of indoor and outdoor sports for all ages. The sports curriculum has been designed to introduce new challenges as your child grows.

Both girls and boys have an equal opportunity to harness their sporting and athletic talents. Indoor sports include carrom, table tennis and chess. Outdoor sports include basketball, volleyball, football, cricket, hockey, throwball, swimming, high-jump, long-jump, and many more. Regular physical training is conducted suited to the stamina levels of children, according to their age. Wrong diet, junk-food habit and negative health influences, are strongly discouraged. The highlight of the year, is the annual sports day, where you can look forward to enjoy your child's moment of glory along with him/her.

FOSTERING TALENT AT AN EARLY AGE

At DPS, we believe that talent can be honed best at an early age. Our students are encouraged to participate in on-stage performances to build their confidence. Elocution, acting, music (both vocal & instrumental), dance, debates and everything else under the spotlight is included. We have fancy dress contests for the toddlers, compering on special shows for the seniors and a plethora of opportunities aimed at building the confidence and personality of the child. Our children are brimming with talent and they have the perfect platform to unleash their potential. The cultural ethos that surrounds all these activities makes the entire exercise enriching and interesting. We have special art exams for students who have a talent worthy of professional promise. These exams give an added advantage to higher studies in art. Regular essay contests and handwriting contests are benchmarks to monitor progress. The school magazine, notice boards and the annual day, have a huge scope to discover the talents that set new standards every year.

The highest education is that which does not merely give us information
but makes our life in harmony with all existence. - Rabindranath Tagore

COMPETITIONS, QUIZZES & INTERSCHOOL PARTICIPATION

NURTURE THE SPIRIT OF VICTORY

"A healthy competition with one's own-self can achieve a lot more than petty competition with neighbours." We inculcate a sense of responsibility that makes competition a level headed and mature interaction between children. DPS, is well represented in all interschool contests and competitions. Science expos, debate

competitions, painting contests, interschool quizzes and exchange programs, all go into igniting the spirit of success.

When our students interact with students of other schools, they stand out as the brighter ones. This reinforces their self-confidence, faith and love for the school. Victory is a feeling your child should treasure. At the same time the ability to handle failure is also equally important. We encourage our students to participate at the district, state and national levels, in all arenas.

LIBRARY

BOOKS... ARE YOUR BEST FRIEND

The library is a reservoir of knowledge and a place where questions and curiosities get answered in silence. Our library is one of the most well stocked school libraries you will ever find. Encyclopedias, self-learning books, Q&A books, latest quiz books, epic books like 'The Children's Mahabharata',

Shakespeare's complete works, light reading books, picture books for the young children and innovative 3D books are all available. Our library also has teaching aids like wall charts, interactive educational games and associative learning toys.

SCIENCE CLUB & COMPUTER CENTER

A HUNGRY MIND IS A TEACHER'S DELIGHT

The information revolution has changed the way we work. Children today pick up the latest trends in gizmos and IT, faster than their parents can imagine. While it gives us great pride to see our children displaying a strong grasping power and quick learning abilities, it also makes us realize the importance of supervising these skills. The computer center has a multifaceted purpose. Right from helping to perform simple tasks like browsing information, to typing-practice

and awareness on viruses etc. to complex tasks like graphics, BASIC programs and multimedia interactions, we have it all chalked out. The curriculum is suited to match the capabilities of children in various standards. We also have a science club, where developing the annual science project and scientific reading habits are specially looked into. Here children are encouraged to ask scientific questions outside the syllabus and increase their reading capacity.

Children love to wonder, and that is the seed of science - Ralph Waldo Emerson

BUILDING PERSONALITY, BUILDING A FUTURE

The ultimate aim of our institution is to develop an all round personality for each of our students. We strive to make our children broad-minded, progressive and secular individuals who are responsible citizens, with a human touch. Socially integrated, morally upright and intellectually sound children, can make worthy decisions all through their lives. We understand our responsibility towards your child, as you entrust us

with the task to fulfill your dreams. We assure you that we have the best equipped team which works untiringly towards realization of your dreams. However, constant success has not made us complacent because each member of the staff and management is on their toes, at all times, alert to your child's every move!

Cultivation of mind should be the ultimate aim of human existence - Dr. Ambedkar
